### DETAILED ACTION

1. This Office Action is in response to the Amendment filed on 06/13/07.
2. Claims 1-15 and 17-26 are pending.

### ***Double Patenting***

3. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

4. Claims 1-15 and 17-26 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-20 of prior U.S. Patent No. 6,727,920. This is a double patenting rejection.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent Claim 1 recites the limitation "said menu" in line 11. There is insufficient antecedent basis for this limitation in the claim.

Art Unit: 2173

7. Applicant's arguments filed 06/13/07 have been fully considered but they are not persuasive.

Applicant argues

Applicants have amended independent Claims 1, 9, 17, and 20 to recite "a graphical user interface". Applicants assert that amended Claims 1, 9, 17, and 20 are not coextensive in scope with Claims 1-20 of U.S. Patent No. 6,727,920.

Examiner respectfully disagrees. Claims may be different in words but still define the same invention. In the instant case, claims 1, 9, 17 and 20 reciting "the graphical user interface" indeed define the same invention as claims 1-20 (US 6.727,920) reciting "interactive menu" and "activatable control mechanism for selecting".

Applicant argues:

Claims 21-26 recite "a graphical user interface", which is not found in Claims 1- 20 of U.S. Patent No. 6,727,920. Applicants assert that Claims 21-26 are not coextensive in scope with Claims 1-20 of U.S. Patent No. 6,727,920.

Examiner respectfully disagrees. Claims may be different in words but still define the same invention. In the instant case, claims 21-26 reciting "the graphical user interface" indeed define the same invention as claims 1-20 (US 6.727,920) reciting "interactive menu" and "activatable control mechanism for selecting".

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
